I love this PSI Woodworking TCLC10VS Commander Midi Lathe. Right out of the box the tail stock live center and the spur drive center lined up perfectly. It runs very smoothly and quietly, the 3/4 HP motor has enough power to make your work easy, (as long as you have properly shaped tools). I also love the variable speed, the Lathe I had prior to this one, I would have to change the Belt to ...

Like the Penn State Turncrafter Commander and the Steeles, it does not have reverse - which, again, in my opinion, is not very important. With five speeds, anything within its capacity can be safely and efficiently turned. One advantage of step pulley speed control is that there is great low speed torque, which is not the case with DC motor/controller equipped lathes. If your turning will be ...
